# MOTIF

# MOTIF

The Motif designs were influenced by the traditional Cuenca technique of using elegant raised lines to create recurring shapes, forms and pattern.

Lines can appear subtle or more defined, depending on your glaze choice. In a single color the glazes flow from the high points to reveal striking designs. Any Motif design may also be hand filled with color selections from our delightfully bold gloss palette or our sparkling jewel toned crackle palette. We've also created sophisticated, classic gloss and crackle colorfill combinations to make ordering easy.

Pratt + Larson has been making custom, hand crafted tile since 1982. Our luxury tile studio is located in the heart of Portland, Oregon and our mission is to  enrich your environment and your life. Our tile is available for purchase through our network of partners throughout the US and Canada.
