

Powered by Renewosome™ Technology

As skin ages, its natural renewal process slows, leading to visible signs of aging. For years, skincare has relied on the same ingredients—hydrators, exfoliants, and chemical treatments. (plated)™ Skin Science is revolutionizing skincare. As the first and only brand harnessing the power of platelet-derived exosomes, we're redefining what's possible for aging skin, supporting its natural renewal process for beauty that radiates from within.

**1 TRILLION+ EXOSOMES
PER BOTTLE**

INTENSE Serum

BEST FOR

- Advanced renewal to restore maturing skin

BENEFITS

- Highest concentration of exosomes
- Intensively combats multiple signs of skin aging
- Reduces the appearance of redness, fine lines, discoloration and dullness
- Refills available

DAILY Serum

BEST FOR

- Renewing support for youthful, radiant skin

BENEFITS

- Brighter, more luminous skin
- Reduces look of pigmentation and redness
- Delivers instant hydration and a smoothing effect
- Defends against future damage
- Refills available

The Power of Simplicity

Potent Formulation

Platelet-derived exosomes deliver powerful results naturally without irritating additives

Simplified Routine

Fights multiple concerns at once—brown spots, wrinkles, dullness and more

Uncompromised Quality

Our exosomes undergo rigorous testing and advanced filtration to ensure the highest level of purity and consistency for optimal performance

First Platelet-Derived Exosome Skincare

FORMULATED IN THE USA

GET GLOWING

1. Apply 1-2 pumps to clean, product-free skin
2. Wait 5 minutes before applying other skincare products
3. Use once daily

#1 Exosome Skincare Brand*

Renew Your Skin Through
Advanced Exosome Science

Experience the Power of Platelet-Derived Exosomes

(plated)™ Skin Science marks a dramatic breakthrough in anti-aging. We are the first and only skincare to harness the power of platelet-derived exosomes. This advanced technology unlocks our body's innate but often dormant ability to transform its appearance and uncover our truest beauty from within.

Why Exosomes?

Exosomes are microscopic messengers that tell our cells what to do. Our platelet-derived exosomes send one clear message to the skin: "Renew and Repair!" They deliver nutrients like peptides, antioxidants, and phosphoproteins to correct the look of brown spots, wrinkles, redness, and more.

"This is a godsend. My skin looks the best it has in 20 years." — Jennifer, verified buyer

Powered by Science, Proven by Experts

- 15 years of regenerative medicine research by top physician scientists

- Recommended by top dermatologists and aesthetic professionals

- Multiple awards, including **TIME Best Inventions of 2024**
