

Manage Your Retail Stores, ALL OF THEM

Fast, Accurate, and Secure Data Transfers

ROBUST FUNCTIONALITY BUILT FOR ENTERPRISE

Operating across multiple retail stores can be challenging. RMH Central has the elements to help your operations better manage

Managing and Configuring multi-unit operations has never been easier

Inventory Control

Inventory levels and selections can be combined, or customized at remote stores, taking advantage of volume pricing

Schedule Sales & Promotions

Intuitive worksheets facilitate setting up promotions by specified group(s) across stores simultaneously

Accounting Receivable

Consolidate A/R by using common billing for customers with house accounting regardless of purchase location, producing a single statement for all purchases

Reporting

Review analytical reports such as inventory, turnover, customer data, and sales velocity across the chain, single store, or store groups

Internationalization

Eliminate store-by-store workload by changing prices, suppliers, or ordering parameters, across all or designated stores simultaneously

Gift & Loyalty

Leverage a complete customer loyalty and rewards program, managing incentive groups, collections, redemptions, and more through a single platform
