PureCannaceutical™ is a superior line of hemp-based herbal supplements. Our products contain specific, plant-derived nutrients vital to the encouragement of the Endocannabinoid System (ECS), which can promote homeostasis in the human body.

We start with phytocannabinoid-rich (PCR) extracts produced, manufactured, and distributed legally and domestically from within the United States. Our products and practices are U.S. Farm Bill Compliant. The certified hemp used in PureCannaceutical™ blends contains no pesticides, fungicides, or heavy metals and is free from mildew and mold.

Formulated with our proprietary blend of specific carriers and hemp extracts, PureCannaceutical™ offers increased bioavailability with an extended half-life compared to standard hemp-infused products. In addition, our products are tested independently by ISO-accredited third-party testing facilities. This allows us to confirm and maintain accuracy, quality, and consistency, ensuring that our customers receive the absolute highest standard in PCR extract products.

PureCannaceutical™ is an ultra-premium line of natural hemp products. Since its introduction in 2016, *PureCannaceutical™* has been honoring the craft of fine Natural, American Grown Hemp infused products.

PCR_X

PCR_X BALM

PCR_X[™] Hemp Balm contains a broad spectrum of cannabinoids with naturally occurring terpenes. Our proprietary blend of carriers provides a highly absorbable base, which we combine with the therapeutic properties of lemon, eucalyptus, peppermint, and frankincense.

Our phytocannabinoid-rich formula is a powerful topical infused with coconut oil, mango butter, hemp seed butter, and lanolin. It may encourage maximum delivery absorbability for the highest potential from our highly-recognizable #1-selling PCR_X[™] Hemp Balm.

PCR_X TINCTURES

PCR_X[™] Tinctures by PureCannaceutical[™] are high-quality products containing American Grown Hemp extracts. Our U.S.-grown industrial hemp possesses a broad spectrum of naturally-occurring cannabinoids and terpenes.

We formulate our products using phytocannabinoid-rich extract composed of naturally derived cannabinoids and terpenes. Enriched with specific minor cannabinoids such as CBG and CBN (may contain trace amounts of other cannabinoids such as CBDv, CBC, CBDa, CBGa and others). With proprietary technology, we can provide the highest quality Natural American-Grown Hemp extract while gently removing all detectable THC.*

The PCR_X[™] tincture may be utilized daily and is available in retail locations across America. Experience the PCR_X[™] difference.

PLATINUM 600 mg Per Bottle 20mg/mL. May include trace levels of other cannabinoids such as CBG, CBC, CBN, CBDa, CBGa and CBDv

Emerald 1500 mg Per Bottle 50 mg/mL. Including trace levels of other cannabinoids such as CBDv, CBC, CBN, CBDa, CBGa, and Enhanced with CBG

SILVER 300 mg Per Bottle 10 mg/mL. May include trace levels of other cannabinoids such as CBDv, CBC, CBDa, CBGa, and Enhanced with CBG

Gold 600 mg Per Bottle 20 mg/mL. Including trace levels of other cannabinoids such as CBDv, CBC, CBN, CBDa, CBGa, and Enhanced with CBG

SAPPHIRE 450 mg of CBD and 150 mg of CBN per Bottle, may include trace levels of other cannabinoids such as CBDv, CBC, CBG, CBDa, and CBGa

Ruby *Full Spectrum 600 mg Per Bottle 20mg/mL. Including trace levels of other cannabinoids such as CBG, CBC, CBDa, CBGa, THCa, THCV and CBDv

*A full-spectrum product is not THC-free but is hemp-derived, as stated by the 2018 Farm Bill, as Cannabis Sativa containing less than 0.3% total THC.

PCR_X SOFT GELS

Each PCR_X[™] soft gel contains 25 mg of hemp extract per capsule with a total of 750 mg per container. In addition, our soft gels are enhanced with CBG and include trace levels of other cannabinoids such as CBDv.

PCR_X[™] soft gels are the tasteless alternative to our tinctures while allowing for accurate, efficient measurement. Include your daily dose of CBD in a familiar delivery method.

- Non-psychoactive
- American Grown Hemp
- 3rd Party Lab Tested THC-free
