Schedule of Brokerage Commissions and Investment Advisory Fees

We receive direct and indirect compensation in connection with your accounts. Direct compensation is taken directly from your account. Indirect compensation is compensation paid in ways other than directly from the account but may impact the value of the associated investments in your account. The sections below describe the compensation that we receive in connection with various investments that may be available to you. In many cases, the descriptions that follow refer to a prospectus or offering.

Values depicted in the charts below reflect the maximum amount a client can be charged (except for per trade minimums). Certain branch offices or registered reps may incorporate lower pricing for some, or all, of these elements and your specific pricing can be provided upon request. All commissions charged to clients can be discounted at the sole discretion of the firm with consultation with our registered reps, financial advisors, and branch officers. All commissions are subject to per transaction minimums that vary between branch offices.

Mutual Funds

We currently offer thousands of mutual funds varying in share class structure and investment style. If you invest in mutual funds, we may receive direct and indirect compensation in connection with such mutual fund investments, as described below.

Some clients choose to invest directly with a mutual fund company. There are different sales loads and fees associated with these products. Please see the applicable Mutual Funds prospectus or their website for additional information.

12b-1/Shareholder Service Fees

Annual 12b-1 fees, also known as trails, are paid to us by the fund out of fund assets under a distribution and servicing arrangement to cover distribution expenses and sometimes shareholder service expenses that we may provide on the fund's behalf. Shareholder servicing fees are paid to respond to investor inquiries and provide investors with information about their investments. These asset-based fees are charged by the applicable fund family and range from 0.00% to 1.00%. These fees charged by the fund families may be partially paid to us and we may in turn pay them to your Financial Advisor/Professional as a commission.

Front-end Sales Charge Fees/Contingent Deferred Sales Charges (CDSC)

Front-end sales charge fees may be charged and paid to us, including your Financial Advisor/Professional, when you purchase an investment in a fund. The front-end sales charge is deducted from the initial investment on certain share classes. This charge normally ranges from 0.00% to 5.75%. Some purchases may qualify for a reduced front-end sales charge due to breakpoint discounts based on the amount of transaction and rights of accumulation. In addition, some purchases may qualify for a sales charge waiver based on the type of account, and/or certain qualifications within the account. You should contact your Financial Advisor/Professional if you believe you may be eligible for sales charge waivers.

CDSC is a charge you pay upon withdrawal of money from a fund prior to the end of the fund's CDSC period. CDSC charges range from 0.00% to 5.50%, depending, among other things, on the share class purchased by the investor. CDSC periods can range from zero to seven years. This charge typically exists only on share classes that do not have a front-end sales charge. It is sometimes referred to as the back-end load. CDSCs are not charged when you purchase a fund.

CDSCs are not paid to your Financial Advisor/Professional. You can find a description of the amount and payment frequency of all fees and expenses charged and paid by the fund in the fund's prospectus. Fees and expenses disclosed in the fund's prospectus are charged against the investment values of the fund. Please note that 12b-1s and similar fees or compensation received in connection with our affiliated funds are not received, or are rebated, on ERISA assets held in our Advisory Program accounts.

Investment Advisory Service Fees

Investment Advisory Services Fees are ongoing fees paid in regular periods based on the total value of the advisory account (inclusive of both cash and investments). This fee will be deducted quarterly in advance from your account (or a check can be sent in) and will reduce the value of your account when incurred. Fees assessed by Brighton Securities are in addition to fees that may be charged by a mutual fund or custodian for certain account services. Brighton Securities' fees are negotiable, ranging from 0.5% to 3%, determined on a client by client basis and may include per transaction fees as applicable. The amount you pay will depend on the services you want and the amount of assets in your account. If you participate in separately managed account programs you may be charged various program fees in addition to the advisory fee we charge. Such fees may include the investment advisory fees of an independent third-party advisor, as part of a wrap fee arrangement.
