

# Assembly Details - Roam Rig

## Whats in the box

- Hitch Mount
- Umbrella Mount
- x2 3/8-16 bolt and nut

The hitch mount is **NOT** designed to be attached to your vehicle while moving. Doing so may result in vehicle and equipment damage.

## Step 1

Secure the umbrella mount to the hitch mount using the supplied x2 3/8-16 bolts and nuts.

The umbrella mount can be attached on either side of the hitch mount using either set of 3 holes depending on your setup and preference.

## Step 2

Secure the base station assembly to the roam rig assembly by placing it onto the tube using the receiver on the bottom side of the base station to line it up. use the supplied 3/8-16 bolt to bolt it down to the pole.
