Designed for a Lifetime of Relaxation

POWERFUL JETS

The shiny stainless Reflections Jets™ are beautiful on the outside and packed with massaging power on the inside for a relaxing, yet healing hydrotherapy experience. Personalize your relaxation with a mere turn of an UltraMassage™ Selector or air control. Interchangeable jet nozzles deliver a custom fit massage experience.

BUILT TOUGH

Layers of hand-rolled fiberglass back the high-gloss acrylic for a hot tub so strong it can actually stand on it's own! PDC Spas is so confident with the integrity of their manufacturing, they back each LifeStyle Series shell with a 10 year warranty—longer than a “lifetime” warranty.

MADE IN USA

PDC Spas designs, manufactures and completely assembles each LifeStyle Series unit in the heart of Pennsylvania. For over 60 years, PDC has employed skilled American craftsmen building a product you can buy with confidence and own with pride.

ENERGY SAVINGS

LifeStyle Series models feature the PDC Spas exclusive TemperLok™ heat trapping design saving you as much as 33% over other hot tub brands.

CLEAN & PURE

Rest assured your hot tub is clean and ready for your relaxation anytime. The Pristine Filter™ system paired with the EverPure™ ozone purification system automatically sanitizes with hands-free reliability. Our exclusive EverLite™ indicates ozone is hard at work keeping your hot tub crystal clean.
