

Bring Comfort and Calm Home.

**Built with USA Pride**

Built from start to finish here in the USA, PDC Spas® proudly employs American workers for unparalleled workmanship. This manufacturing excellence stands apart from others with hand-rolled fiberglass and non-filled resins producing a shell so strong it can stand on its own, confidently backed with an unprecedented 35 year warranty.

Log onto [www.pdcspas.com](http://www.pdcspas.com) for continuing updated product information. All spas to be installed by a licensed electrician in accordance to all national and local codes. Spa use must be enjoyed within certain safety parameters regarding temperature, pregnancy, medication and alcohol use, to mention a few. Refer to owners manual for detailed guidelines.

Sleep Better. Feel Better. Discover a Better You

Reap the many benefits of warm water therapy from joint pain relief to healing sore muscles to much needed family time to simply a better night’s sleep. The shiny stainless Reflections Jetting delivers an effective hydromassage, both powerful and customizable. These jets offer -directional, pinpoint, swirling and pulsating relief to overworked, tired body parts. Customize your relaxation with a simple turn of an air control, UltraMassage™ diverter and even the jet nozzle.

Perfect Fit for Every Body

Our hot tub collection of 16 models in 3 series features sizing and design to surely satisfy all relaxation expectations. Choose open-wide seats, deep cradling bucket seats, no-float lounges and even recliner seats offering massage action from neck to toes. Ample, roomy foot areas assure everyone has complete comfort and stretch-out space.

Economical Heating - Recycle, Reuse, Repeat

The reliable, TemperLok™ heat trapping design saves up to 33% over other brands by reusing and recirculating trapped warmed air. Insulated floor and sidewalls uniquely hold pump waste heat to maintain water temperature enhancing performance efficiency and energy savings. Unlike foam-filled designs, the TemperLok™ design assures the hot tub remains lightweight for easy installation and economical servicing for a lifetime of enjoyable relaxation in any season. Lock in heat, lock out water weight and assure safety with the AccuLok™ thermal cover

Effortless Water Care

Clean, crystal clear water is simple with the pressure-side PowerFlo™ filtration design and the EverPure™ ozone system. This powerful oxidizer continuously destroys contaminants, is environmentally safe breaking down to pure oxygen after its work is done. All you are left with is purified spa water and a clean, “after rain” fresh scent. Take the guesswork out of water care with the EverLite™ indicator. A quick glance at the cabinet mounted light assures the EverPure™ ozone is hard at work keeping your hot tub sanitized and pure.

Turn on the Lights, Turn off the Stress

Perfect your evening retreat basking in a soft glow of rotating color from the bottom up. Our LED lighting options cast colorful rays from underwater pin lights, lighted cascading spouts and cabinet sconces enhancing your relaxation at days end.

Air'assage™, Exclusive Oxygen Air Therapy

The natural effects of warm water massage are enhanced with Air'assage™ in five Luxury Series models. Warm air is circulated in as many as 73 stainless trimmed air outlets for a gentle, all-over Swedish body massage, the many benefits of oxygen; skin cell rejuvenation and refreshed energy levels.

“Our PDC spa has added a sense of relaxation and beauty, completing our outdoor space. No matter the season, our PDC spa is warm, soothing and wonderful! We talked about getting a spa for 15 years! Now we ask ourselves—why did we wait so long?”
