

Looking for Swim Spa Cover Options?

- The E2E Sport Cover® ease-of-use design enables one person to roll the cover off the swim spa in less than 60 seconds. The E2E Sport Cover® is user-friendly and designed for a single family member to access the swim spa easily, with this lighter weight option.
- The E2E Sport Cover® is designed to roll in either direction, which is perfect for dual zone swim spa models. Simply roll back the fitness zone for family fun and exercise or the hot tub zone for much needed relaxation.
- Manufactured in the USA, custom covers are built to fit all PDC Spas swim and fitness spa models. Simply provide the length of your model, and choose from four color options.
- Covers are manufactured with the highest quality commercial grade materials, which provide a strong, durable, lockable safety cover meeting ASTM standards. Backed with a pro-rated 36 month warranty, CEC certified.
- With the use of closed-cell foam insulation, the E2E Sport Cover® will not absorb water, while remaining lightweight and efficient for easier rolling. The E2E Sport Cover® one-piece design creates a complete seal all the way around the swim or fitness spa, locking in the heat with an estimated 19.5R value, lowering energy consumption and cost .
- This cover requires a Cover Shelf bracket assembly on one end of the spa unit where the cover will rest during your fitness or relaxation time. The installer will have to determine the strongest location on the swim spa cabinet onto which to mount the Cover Shelf brackets. Contact your PDC Spas salesperson for installation guidance.
