*Your BETTER alternative.*

You can feel good about coming to Syracuse Home. Each year, over 500 people successfully complete

our rehabilitation program. Family members can rest assured knowing their loved ones receive the best treatment available.

Our program scores nearly 100% in patient satisfaction surveys each year. When people come to visit for a tour, they are often surprised by the warm and welcoming atmosphere. Studies show that well-designed rehabilitative environments can reduce a patient's anxiety and stress, accelerate recovery, lessen the need for pain medication and promote a better sense of well-being.

After surgery, injury or illness, if you find yourself in need of short-term rehabilitation, choose Syracuse Home at McHarrie Place — one of the most highly recommended programs in Central New York. We'll treat you like family, help you heal, and get you back to your life.

Get better, and  
back to your life

We know you just want to get well quickly so you can get back to the life you enjoy. It's the little things that people sometimes take for granted, but in reality are so important to overall health and happiness. We've embraced this philosophy in our program by combining top-notch care from our exceptional staff with the comforts of home.

Socializing with friends, traveling, visiting loved ones or enjoying your favorite hobbies are not just "little things" – they are the very reasons why you want to get back to your life. We get it. And we'll help you get there.

What is better?

Whether you're considering our rehabilitation program for yourself, a parent or loved one, rest assured you are always in good hands. It's not just our therapies that make us unique, but also our warm and relaxing environment especially designed to help you heal. From our cozy lounges with fireplaces to our spa-inspired bathrooms, you'll experience the added touches that are beneficial to your physical, mental and emotional well-being.

Enjoy the little things in life...

...some day you'll realize they were the big things.

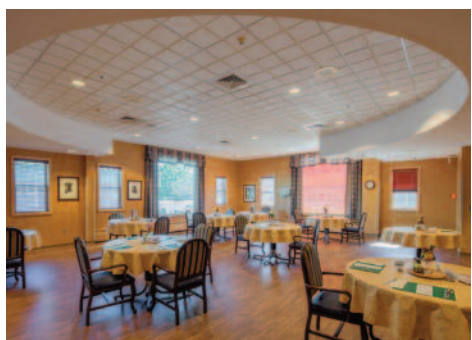

A better path  
to recuperation

Our advanced clinical and rehabilitation programs provide effective paths to recovery. Our highly trained and attentive professionals are often praised for their ability to help our patients regain their strength and mobility to their fullest potential. We offer short-term rehabilitation following planned surgeries or unexpected hospitalizations for:

- Cardiac
- Orthopedic/joint replacement
- Neurological disorders/stroke
- Strengthening

We will customize our program to your individual needs including:

- Physical, occupational and speech therapies
- Progressive care plans
- Pre-discharge home evaluations
- Discharge planning — home care or outpatient therapy, as needed

"After double hip replacement, my rehab therapy at Syracuse Home was a complete success. I've never lived or felt better. It is my pleasure to rave about Syracuse Home whenever I am asked about my stay."
