

# MASTER SERIES DOOR ADJUSTMENT

**Step 1 :** Pry up the plastic nub with a sharp object.

**Step 2 :** You will see a phillips head screw.

**Step 3 :** Remove the screw and you will be able to remove the plastic cover.

**Step 4 :** Use the provided allen tool to loosen the screws (as needed) to reposition the door. Once you get the alignment correct, re-tighten the screws.
